

RELATES TO AGENDA ITEM NO. S-1

MOTION BY SUPERVISOR GLORIA MOLINA

OCTOBER 2, 2012

Since 2008, the Director of Health Services and the Chief Executive Officer have provided bi-monthly status reports as a Set Item on the Board’s regular agenda, regarding various key indicators of progress, hospital operation status, and other issues related to the LAC+USC Medical Center. At this time, it is appropriate to remove this matter from the Board’s agenda as a Set Item and continue to provide status reports to the Board of Supervisors.

I, THEREFORE, MOVE that the Executive Officer of the Board to remove the Set Item from the Agenda and instruct the Director of Health Services and the Chief Executive Officer to provide a written report to the Board on a monthly basis regarding various key indicators of progress, hospital operation status, and other issues related to the LAC+USC Medical Center.
